

Weekly Progress Report: Week 2

Mujawwad Project Team

Oct 6th – Oct 12th

Week 2: Scoping and Initial Proposal

Task	Description
Feature Definition & Implementation Analysis	Following the project’s selection, the team defined the core features and scope. We analyzed the project from an implementation perspective to identify the required technologies and potential challenges.
Initial Project Proposal (Version 0.1)	Drafted the first version (v0.1) of the project proposal. This involved several team meetings to formalize the project scope, define clear objectives, and establish a high-level project plan.
