

# Weekly Progress Report: Week 1

Mujawwad Project Team

Sep 29<sup>th</sup> – Oct 5<sup>th</sup>

## Week 1: Project Initiation, Selection and Proposal

Task	Description
<b>Team Formation &amp; Advisor Selection</b>	Formed the project team based on mutual interests and technical alignment. We identified and secured supervisors whose area of expertise matches the project's domain.
<b>Project Selection &amp; Finalization</b>	Conducted team brainstorming sessions to generate a wide list of potential project ideas. We met with our internal supervisor to review and shortlist the most viable concepts. After further research, we finalized "Mujawwad" as our capstone project.
<b>Proposal Refinement &amp; Correction</b>	Submitted the initial proposal to our supervisor for review. Based on the feedback, the team met to address all comments and correct mistakes, including adjustments to the Gantt chart and title page.
