Weekly Progress Report: Week 4

Mujawwad Project Team

Oct 20th – Oct 23rd

Week 4: Software Requirements Specification (SRS)

Task	Description
SRS Creation (Version 1.0)	Held dedicated team meetings to develop the initial draft of the Software Requirements Specification (SRS) document, detailing the application's functional and non-functional requirements.
SRS Refinement & Correction	Presented the draft SRS to our supervisor for review. We received feedback, identified mistakes and ambiguities, and subsequently held a team meeting to correct the document.
